Greta Alexander 309-244-8415

I filled in Greta on Veronica being missing. Greta asked me (Dennis Saam) some details on Veronica. I told her she was 21 years old, she had left work at 1:00 am on Thursday morning, and had never made it into the house. I told her she was 5ft tall and had blond hair.

Greta told me she was a cute build.

I told Greta we didn't have any clues, and we needed her help.

Greta asked me to ask her family the following questions.

1. When she was 16, who was her boyfriend? THIS IS A KEY

2. She made a change when she was 19 years old, what was it?

3. Had she recreantly made a job change, or was she considering a job change?

4. Does she drink?

5. What is on her bed?

Greta said that she was in a timber or wooded area, that she had come to the area with someone else, and walked into the timbers. She knew who she went with, and went willingly.

Greta Alexander, Saturday, September 22, 1990, 09:30 hours

Greta said that she can see Veronica that their are trees, grass, and a wooded area. Veronica is face down in the grass right now. Veronica knows who she went with.

Greta can see a truck, dark colored, with a lot of silver stuff.

Dennis: I questioned type of truck. Pickup?

Greta said: yes pickup, dark colored with a lot of silver stuff, souped up.

Dennis: By silver stuff you mean chrome?

Greta: Yes chrome.

Greta: Veronica didn't take much with her. I can see her car in the garage, her back is against the wall. She hears a noise, it's the truck. She gets in the truck, there is more

than one house in the neighborhood. They drive through the road repairs and veer away from the road repairs towards a fence. There are fewer houses and fields, not corn, real low beans.

Greta can see a silage pile or pit or building.

Dennis said: A silo?

Greta said yes.

When you see it turn away from it, it will put you on a secondary road and it is real bumpy.

Look for a ravine, or a river or a lake.

Greta Alexander, September 22, 1990, 15:00 hours.

Greta is excited. We are close we are going the right direction, look for an old abandon house. We are in the right area. Greta can see Dennis shaking someone with light brown hair saying "why didn't you tell us that?"

Gave the phone to Investigator John Packenham

Greta told John that a Harry or a Larry are involved. Veronica hears water dripping. Sees a tall tower with black oblong items. If Greta was a giant looking around, she can see the tower, if she turns to her right she can see a church steeple then a tent type roof that flattens out, then turn to the right again and she sees a lake or a river. I go down a bumpy road or a plowed field.

Greta Alexander, Saturday September 22, 1990, 18:00 hours

On celier phone:

Pulled in the Blumhorst driveway and called Greta:

Greta can see Veronica getting out of her car and saying "what are you doing here?" The person says "come here I have something to show you." Veronica turns off the lights, and shuts the garage door and gets in the vehicle with the person.

The alley is well lighted, and Veronica know who she went with.

Look for a mailbox.

Dennis: Told Greta I can not see one.

Greta said to back out of the driveway.

Look for a post.

Dennis: Said I see a clothes line

Greta: Go that direction. Stop at main road. Turn toward fence. (turned right on 251)

Greta: you will go over rough road. you are now passing a hospital or a hospital sign. You are now going a metal building. Aunt Margs V/AKN

Dennis: We have to stop at the stop sign. 251/Meridian

Greta: Go straight. You are going toward a fire station or a police building. An old Ambulance was sitting @ Western Store @ 251/Rte 52 split

Dennis: No way.

Greta: Yes you are, don't tell me that Denny.

Dennis: The nearest fire station this direction would be Compton 5 miles ahead.

Greta: Turn away. (Turned up Rt 52)

Greta: Look for a crossroads.

Dennis: We are no where near a crossroad.

Greta: Turn at the next secondary road not paved. (turned at next road north). E. 1st Rd

Greta: Said it would be a rough road. Veronica is fighting or arguing. Veronicas' face hurts, he just hit her. They are swerving all over the road while they are fighting.

We will go past a grove of trees where the kids party. We will cross a bridge. Next crossroads turn toward where you go fishing. (turned to the east)

Greta: Said she was getting cold, we went the wrong way. turn around. (did so)

(when we got to the crossroad and proceeded west Greta said she picked us up again)

Greta: Veronicas' face hurts real bad like he hit her. Look for crosses in the field.

Dennis: I see high lines going across a field.

Greta: That's it

Greta: Look for animals, horses, cows, etc. (horses on left)

Greta: look for big metal building, turn to where you can go fishing. (back on 52 north)

Greta: Turn next crossroads. Turn toward water. Look for trees, water and a bridge. Turn on next road, real rough where you turn off. Cross the bridge by where you'd fish. Turn in field. (no place to turn)

Greta: got cold, (turned around and went back across bridge)

Greta: Look for cemetery or concrete pile. look for a wood pile or fence post pile. Go past the dump. Go toward where you'd go fishing. (searched)

Greta Alexander, September 23, 1990, 8:30 hours

Greta: Veronica got cold last night. Her side, her face and her leg hurts.

Greta: Does her boyfriend drink? She is close to a campground and water. Call back in an hour.

Greta Alexander, September 23, 1990, 9:45am

Greta: I see a footbridge. I see Denny shaking a kid with light brown hair, saying why didn't you tell us this?

Greta: I see a tall tower, an old car or piece of machinery wherever Veronica is you have to back out of

Dennis: Is Veronica alive?

Greta: I see the sign of the cross, not good. I hope I'm wrong I hope the papers say Greta is wrong, Veronica's alive.

Greta Alexander, September 23, 1990, 11:00am

Greta: Veronica put the car in the garage, she got out, she said "what are you doing here" It's a pickup, or a van or a Bronco, its a newer model with chrome and its real shiny. Are her and her present boyfriend breaking up or arguing? Does he drink a little bit?

Greta: They go past a drugstore or grocery store where they sell pills. She goes there a lot. She works there.

Greta: I here bells ringing. ding dong, church bells or railroad. The guy wears boots that lace up overalls, bluejeans, they are dark and not faded. A dark T-shirt with a pocket. a belt with an emblem, a buckle with a emblem, I can't make it out. They go over a bumpy road. Look around the garage for a piece of paper, It won't mean didly to most people, but we can associate it with Veronica.

Greta Alexander, September 23, 1990, noon

Greta: By 2:00pm something will happen

Greta: I see a man standing outside a commercial building looking into the building at Veronica. Ask Veronicas' Mom if she broke up with someone in the winter time. Did she have her own place or think about getting her own place?

Her friend Mary Ann or Marlyn or Marty, or Marge can give us information.

Greta Alexander, September 23, 1990, 1:30pm

Greta talking to Paul, Betty, and Todd

Greta: Trees, sunlight through the trees, embankment, head and arms hurt, turn around see an eagle. Pipe with water running over the spill way, head and arms hurt. Red light, real bright all the time. Barn door that opens, may need painting. An old-fashioned school.

Greta talks to Dennis:

Greta: Go past school, over the bumps, over the bridge, Veronica is hollering here I am, here I am. Look up at the sunlight coming through the trees.

Greta Alexander, September 24, 1990, 11:00am

Greta: Find the truck, she is 18 to 20 miles away. He'll go back to the scene. Veronica know who she went with, he said Aw come on I have to show you something it will just take a minute. When he turns the wrong direction, she knows something wrong.

Greta Alexander, September 24, 1990, 12:40pm

Greta talks to Jeff:

Argument, no. Where is the campground close to where I live. No I don't have long hair. Who does, her brother-in-law. Where is the hill where I can look at the city. (gives the phone to Paul)

Paul talks vaguely and hangs up.

Greta Alexander, September 24, 1990, 12:55pm

Dennis called Greta to talk.

Dennis: What do you think of the boyfriend? We here a click on the line. Greta says somebody picked up, I'll talk to you later.

Greta Alexander, September 24, 1990, 1:05pm from phone booth.

Greta: boyfriend, says he is cooperating but he is not. His folks are really bewildered, they don't know what's going on. Whoever she went with was waiting for her to get off work.

Greta wants Pauls palm print of the hand he writes with. Police department can print. Faxed to Greta. (309-244-7535)

Greta needs Pauls date of birth, Veronicas date of birth, and Pauls age when they adopted Veronica.

Greta Alexander, September 24, 1990, 3:30pm

Prints didn't fax try again.

Denny and Paul leave to see Greta:
